ONLINE-SEMESTER.LT@HSWT.DE

Dear students,

Be an exchange student at Department of Agriculture, Food and Nutrition of University of Applied Sciences Weihenstephan-Triesdorf!

In the upcoming winter term, from **1st of September 2023 till 14 of February 2024**, Weihenstephan-Triesdorf University of Applied Sciences (HSWT) in Germany invites you to join our English and/or Ukrainian-taught study programme in the field of **Agriculture, Food, and Nutrition** at our campus in Triesdorf.

HSWT is known as one of the leading Universities of Applied Sciences in Life Sciences in Germany with a strong international network. Guided by our experienced teaching staff, you will have the possibility to learn online about basic and advanced topics of agriculture, food and farming industry and gain profound insight into current trends and developments.

Studying in our international student community will be an exciting learning and effective experience and give you the opportunity to gather as enrolled student of HSWT the possibility to achieve European Credits which can be acknowledged by your home university.

HSWT has extended experiences with online classes and can offer a stable and efficient online learning environment.

Participation Requirements

- » Enrollment in Agriculture, Food Stuff Management or related fields in a university outside of Germany
- » Undergraduate students 2nd year or advanced
- » English language proficiency of at least level B1 of the Common European Framework of Reference for Languages (CEFR)
- » Willingness to learn and work
- » Team spirit

How to apply

If your university and HSWT have a cooperation agreement, please ask your department coordinator or International Office coordinator to nominate you for the programme (by 31st of May). Once we have received your nomination, we will send you information on our online application procedure. If there is no agreement in place, you may study with us as a Freemover. In this case, please send an e-mail to the International Office at HSWT (see below) also by 31st of May 2023. All documents have to be send till 23rd of June 2023.

For further information see also: <https://www.hswt.de/international/wege-an-die-hswt/austauschstudierende>
<https://www.hswt.de/international/wege-an-die-hswt/internationale-studienangebote>

Costs

HSWT does not charge any tuition fees. A semester fee of approx. 67 Euro has to be paid upon enrollment.

*European Credits (EC) refers to the total time/work required for a module. 1 EC corresponds approximately 26 - 30 hours of workload for a study. The workload includes the attendance of online teaching time, preparation and follow-up of the teaching units, preparation of papers or group meetings outside of the attendance time and the learning effort for the examination and examination.

Testimonials from previous online semesters

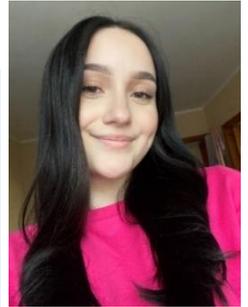

With the help of teachers, I discovered business planning, which, I'm sure, will help me a lot in the future. Therefore, if you, for example, worry about the difficulty of learning, then it is in vain. You will be supported every day and everything will be explained in detail.

**Iryna Manko,
Sumy National Agrarian University**

Despite the online format, the training was very interesting; the teachers did everything possible to encourage students. English has become the most useful language for me! Thank you very much for this incredible experience.

**Iryna Bondarenko,
Poltava State Agrarian University**

During the online semester, I chose two subjects "Data Collection" and "Production Economics". I gained a lot of knowledge from both subjects, as the teachers explained the material very easily and accessibly, there were plenty of practical tasks to finally consolidate my skills. Now I understand much better how to collect data and how to structure the obtained data and calculate the economy of production using them. This knowledge definitely will help me in the future.

**Hanna Slobodiuk,
National University of Water and Environmental Engineering**

I learned how to work in a team with other students. The teachers always helped when there were difficulties. It was an interesting experience of studying abroad. These skills would help me to realize myself in the future.

**Yura Muravskiy,
Vinnytsia National Agrarian University**

Participation in the program opens many new acquaintances, impressions, opportunities. Having studied, the online semester enjoyed the educational process, a non-standard approach to conducting classes, which motivates to gain new knowledge.

**Melnichuk Serhii,
Vinnytsia National Agrarian University**

I had many fun and learned many interesting things while studying remotely at the University of Weihenstephan-Triesdorf. In my opinion, this project is fantastic and unforgettable, because it was on it that, we were able to simulate different life situations, make a business plan and be able to communicate with native speakers. The online semester is a step into the future, so I will be proud to mention and tell everyone I know about it.

Denys Volinskiy
Vinnitsia National Agrarian University

I gained a lot of new knowledge and practice during the online semester, and my English communication skills improved significantly. The disciplines were taught with great attention to detail and in an interesting way. Despite the lack of physical contact with classmates and instructors, I felt that our group was well coordinated and we worked successfully together.

Diana Lopatina
National University of Water and Environmental Engineering

Weihenstephan-Triesdorf provided me with a strong academic foundation and practical skills that I can now apply to my career. One of the things that stood out to me was the high quality of the teaching. The professors were knowledgeable and passionate about their subjects, and they always made time to answer our questions and provide guidance. I also appreciated the hands-on approach to learning, which allowed me to apply what I learned in real-world situations.

Yevheniia Sukhostavets
Sumy National Agrarian University

My best decision was to participate in this online semester. What pleasure you can get when you start doing something in a new team with new knowledge and see your progress. Such an experience takes us out of our comfort zone and we can succeed! Do not be afraid and try yourself in something new.

Anna Bobryk
National University of Life and Environmental Sciences of Ukraine

The online semester at Weihenstephan-Triesdorf is a life-changing program. It was a priceless chance that I was able to get - study at a European university, new acquaintances and invaluable experience. Communication with teachers and students left the most pleasant impressions. Thanks to my university, which respects its students and gives young people the opportunity to use the acquired knowledge in practice. I would like to advise every student to try to get such an opportunity. After all, the experience after this program will stay with you for the rest of your life.

Anhelina Kozlan
Vinnitsia National Agrarian University
